Dear Grattan,

Many thanks for your continued support throughout this case.

The Smiths are clients of ours, but as we cannot provide legal

representation we have been liaising with CLP on this matter. Dr Angus

Murdoch of CLP was their planning solicitor, and he will know if there is a committal hanging over them or not. All I know is that the case went to the

High Court on 23rd February and that they were given 6 months to leave the

land. I have contacted Bobbie of CLP and asked her to contact the Smiths

regarding putting in a homeless application a la the Delaneys. I have also

requested a transcript of the Delaneys' hearing as the caselaw will be

helpful for CLP when putting together a case for the Smiths via the cultural aversion line. This will involve CLP stating that land is the only appropriate offer that the council could make as a result of finding them homeless and in priority need (which we can only hope they will). CLP can also ask that the council allow the family to stay on the land while the homeless applications are going through, and then probably through review, etc, which may buy them some time.

CLP are available on 0121 685 8595.

I hope this makes some things clearer,

Kind regards,

Anna Hinton
